

Case File no: 26443. Arthur.

Born: 1914 (living in Islington at time of application)

Date of application: 1922

Age: 8 years

His father died in 1918 of wounds and heart disease. Arthur (aged 8) was influenced by some boys "of dishonest tendencies" and with them he broke the windows of a factory and stole 5 boxes of soldiers. Various other misdemeanours were alleged but nothing serious. His mother couldn't control him and it was thought best all round that he be removed from the area and given a fresh start. He went to Cheshire but it was too far for his mother to visit (she was living on a widow's pension) and so he was moved and spent most of his time at Knebworth supported by the South Africa Fund for children whose fathers had been killed or died as a result of the War. His mother kept in touch with him and he eventually returned to the family home having started an apprenticeship as a cabinet maker. The family lived in Islington and there is some information about the locality, the school Arthur attended and the family's lodgings.

ARTHUR [REDACTED]

Born 15th. April, 1914.

Inmate of the Society's Boys' Home, Tattenhall

The Father of this boy served in the Army and died of wounds received. The Mother is very respectable and spoken well of in the district in which she lives, but this lad was causing her much distress as he had come under bad influence and taken to pilfering in the street and she felt that he ought to be under stricter discipline.

Time tables, however, in themselves show but little; they represent only *what* is done. *How* and *why* things are done gives to them their real significance. May we ask any of our readers who are interested in children, to visit the Home itself, and they will learn more about it in half an hour's visit than hours of explanation can give? And those of them who look upon boarding-out as the only satisfactory method of dealing with homeless children may, if they will come, be brought to allow that children can enjoy a natural life even within the walls of a "Home."

*ENEMIES OF CHILDHOOD. No. 1.—Drink.*BY THE REV. J. W. HORSLEY, M.A., *Rector of S. Peter's, Walworth.*

IN whatever department of social reform people are interested, they cannot proceed many steps before finding the stumbling block of intemperance in their path. In many cases, indeed, it seems not so much a stumbling block as a flint wall against which

probably sixty per cent of the rooms in our workhouses, are filled by those whose loss of liberty, or of reason, or of health, whose expensiveness to the State are due, directly or indirectly to their habitual and excessive use of intoxicants. "Crime is condensed

THE DRUNKARD'S HOME.

they dash themselves in vain, only to fall back bruised and bleeding. It is a commonplace and admitted fact, that three-quarters of our prison cells, half of the beds in our hospitals and Poor Law Infirmaries, at least a third of the wards in our asylums, and

beer," is a statement I ventured to make some years ago, which expresses with bitter truth, although not of course with entire accuracy, what is the case with regard to one burdensome class of the community. With respect to our Asylums, the complaint of

A MATCH SELLER.

"WILL YOU BE MY FRIEND?"

THE following are a few of the cases recently brought before the Committee. They have been accepted by the Society as free cases, as the relatives are entirely unable to help. It is therefore suggested that individual friends might come forward and make themselves responsible for these special cases by guaranteeing £18 a year (7s. a week), or *any less sum*, towards the support of one of the children mentioned below. **The Society earnestly pleads for immediate help in respect of these particular cases.** Further information respecting any case will gladly be supplied on application, and subscribers are invited to take a personal interest in the child selected.

30828. PERCY T. B. Aged nine. This lad was adopted immediately after his birth by a woman who had just lost her own baby. She and her husband brought him up as their own until the husband's death two months ago. The widow has to go out to earn her own living and now has neither the means to support the boy nor the time to supervise and train him. There is no knowledge of the boy's own parents or relatives, and the Society has been asked to carry on the work begun by this good woman nine years ago, and to make a man of the boy.
30802. FRANK LEONARD G. Aged six. One of four fatherless children under the age of eight. Father died in May last, and the mother, in her efforts to work for her little one's support, is handicapped by bad eyesight.
30530. LEONARD J. C. Aged nine. One of three children who have lost their mother by cancer. The home has since been under the notice of the N.S.P.C.C. Now comes an appeal to the Society in these words: "The boy may be made a man of if taken at once from his surroundings, which are most terrible—please do your utmost to remove him at once and so save another soul."
30651. OLIVIA A. G. Aged eight. Father dead and mother, suffering from dropsy and heart disease, is unable to work. The mother's brother, who is described as having done his utmost for his sister and her children, is prepared to keep the mother and one child, but cannot do more.
30798. WILLIAM E. W. Aged twelve. Father unknown, this boy, deserted by his mother a woman of most unsatisfactory character, has been brought up by the good couple in whose charge he was left when she disappeared eight years ago. Adverse circumstances prevent their keeping him any longer. A veritable waif, "One of the least of these," the Church cannot refuse to adopt him.
30533. NELLIE A. W. F. Aged seven. One of a large family, mother dead and father, owing to ill-health, unable to work. Nellie had found a home with an elder brother, who has now enlisted and whose home has consequently been broken up. "A sad, deserving case," write those interested.
30660. ROBERT R. B. Aged eight. Mother died four years ago, and father died last March. The boy is described as a good little chap, and is surely worth considering as a possible asset to the nation in the days to come. A brother of sixteen is already in the Navy.
30847. GEORGE E. D. Aged ten. One of five children whose father, a private in the army, died as the result of an epileptic fit. His widow is ineligible for a pension and is quite unable to maintain her five little ones.
30634. ALFRED H. M. Aged eight. One of three children whose father never married their mother. Now he has married another woman, and the three wronged little ones are left to be supported by the mother. A woman of weak health she can do no better than earn 7s. a week and her food at a butcher's shop.
- 30543-4. GEORGE and RICHARD E. Aged eight and six. Father, an ex-soldier, experienced misfortune after leaving the army, and died two years ago, his health having been undermined by want and privation. He left five young children. The mother by casual work endeavoured to maintain the children. Then came tales of her association with bad characters, and now another little mouth has been added to those which were so often insufficiently fed before.
30556. ANNIE M. L. Aged six and a half. Five little ones to keep on her earnings of 10s. a week as a charwoman is the situation facing this child's mother. Six years ago the father died, and under the guise of friendship and a home offered to her little ones further trouble has come to the mother. The case is very strongly supported by the district visitor.
